School Nurse

RE: _____ _____
Patient Name

The minor individual named above is my patient. I understand that this patient is a pupil in your school district.

I further understand that Chapter 308 of the Laws of 1993 allows the parent(s) or guardian(s) of a pupil who has asthma or other potentially life-threatening illness to authorize self-administration of medication by the pupil so long as the pupil's physician certified to the school district that the pupil is capable of, and has been instructed in, the proper method of self-administration of medication.

My patient has an illness or condition identified at the end of this form and is required to take the medication also identified at the end of this form.

My patient is capable of, and has been instructed in, the proper method of self-administration of this medication. In the event that the medication which I have prescribed is changed in the future, I will either assure that my patient remains capable of, and has been instructed in the proper method of self-administration of said medication, or will notify the school district that my patient is no longer capable of, or has been instructed in, the proper method of such self-administration.

I understand that the authorization by my patient's parent(s) or guardian(s) is effective only for the current school year and must be reauthorized by them for each future school year. Any such reauthorization by my patient's parent(s) or guardian(s) for any future school year must be accompanied by a new certification by me.
