

Mount Misery Medication / Health Information

1. A nurse will be at the camp 24 hours a day. The camp nurse must administer *all* medications. However, if a student has a life-threatening medical condition she/he may self-carry his Asthma Inhaler or Epi-Pen for an allergic reaction to Bee Stings, Latex or Food Allergies. All appropriate paperwork must be completed and on file with the nurse.
2. Place all medications in a plastic bag. Please make sure the bag is labeled with:
 - a. CHILD NAME
 - b. HOUSE NUMBER (6-1; 6-2; OR 6-3)
 - c. DATE OF TRIP to Mt. Misery.
3. All medications must be in their **properly labeled prescription bottles**.
4. All over the counter medications (Tylenol, Advil, Benadryl, Sunscreen) must also be in their properly labeled containers. Vitamins must be in their properly labeled bottles.
5. The nurse cannot dispense any loose pills or tablets.
6. All BAGS OF MEDICATIONS ***MUST*** be brought into the NURSE one week prior to your child's trip. **Medications will not be accepted the morning of the trip as this will delay departure for all students.**
7. **All Medications including over the counter medicines (Vitamins, Sunscreen, etc.) require a doctor's order with the exception of Acetaminophen (Tylenol) and Ibuprofen (Advil or Motrin) which requires written permission from a parent/guardian** (This permission is separate from any permission form signed at the start of the school year). All orders should be legible and clear as to how and when.
 - a. Additional medication forms are available on our website: www.carusi.us/academics/mtmisyery/
8. Please make sure you fill out the Health Information Form, including:
 - a. Date of last Tetanus shot
 - b. Allergies to foods, medication, etc.
 - c. Exposure to recent illnesses (chicken pox, strep throat, etc.)
 - d. Your signature- which gives teachers / Mt. Misery staff permission to seek emergency medical treatment at the closest hospital. Parents will be notified immediately of any serious health issues that arise.
9. A **Nebulizer** for asthma treatment is available at camp. If a nebulizer treatment is needed, send in the proper tubing and mouthpiece along with the prescribed medication and Doctor's Order.
10. Please share any concerns you may have about your child (Sleepwalking, etc.) on the Health Information Form.
11. Place all medication forms in the Plastic Medication Bag so they are not lost.
12. The Carusi nurse or a house teacher will return all medications to the parents upon arrival at school after the trip. ***Please pick up your child's medications when you pick your child up from the Mt. Misery Trip.***
